

POWER PERFECT BOX

- *Improve Efficiency & Reduce Costs*
- *Filter Harmonics & Dirty Electricity*
- *Provide Surge Protection*
- *Reduce ElectroMagnetic Fields*
- *Protect Equipment*
- *Prolong Equipment Life*

Industrial and Commercial
Condition the Power for your Facility!
Reduce Your Power Bill!

POWER PERFECT BOX

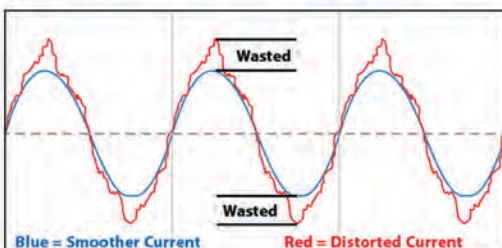

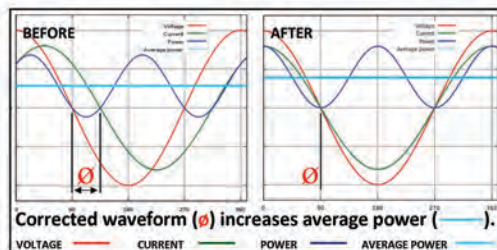

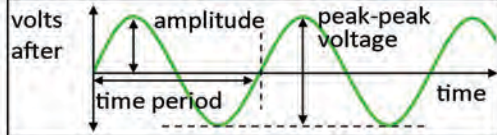

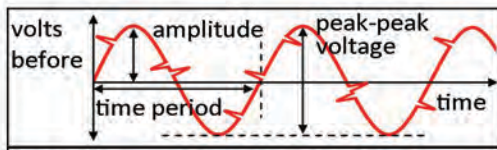

Single and Three Phase 120V, 208V, 240V & 480V

Satic's wire-in product line installs directly at the breaker panel or at point of use such as air conditioners, chillers/freezers or any commercial motor application providing line conditioning, surge protection, phase correction and harmonics reduction.

Safeguard your electronics • extend the life of your equipment • improve audio/video clarity in media equipment • eliminate voltage distortions! The Power Perfect Box will do all this and save money on your electric bill!

PROFESSIONALLY INSTALLED ON INDUSTRIAL MOTORS, A/C OR RIGHT AT YOUR BREAKER PANEL

• Reduced Electrical Consumption:

- Cooler equipment
- Longer lifetime
- A lower utility bill

• Electromagnetic Field Reduction:

- Create a safer, healthier environment

• Voltage Regulation:

- Surge protection for your whole system

• Dirty Electricity Elimination:

- Protect sensitive electronics from nanosurges
- Improve audio and video quality.
- Protect expensive A/V equipment

• Phase Correction:

- Increase efficiency
- Increase performance

• Harmonics Filtration:

- Provide cleaner Power
