

POWER PERFECT BOX

- *Reduce Overall Energy Costs*
- *Provide Surge Protection*
- *Increase Reliability*
- *Prolong Equipment Life*
- *Filter Harmonics & Dirty Electricity*

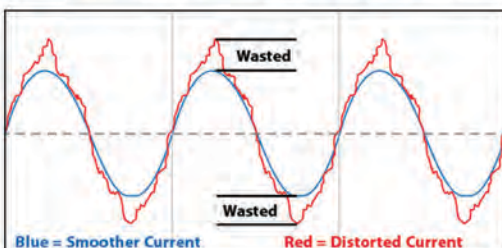

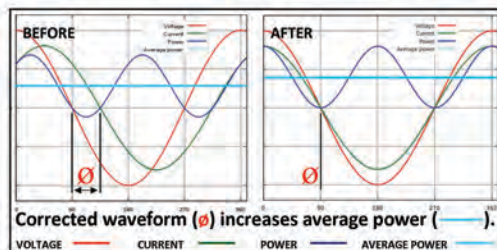

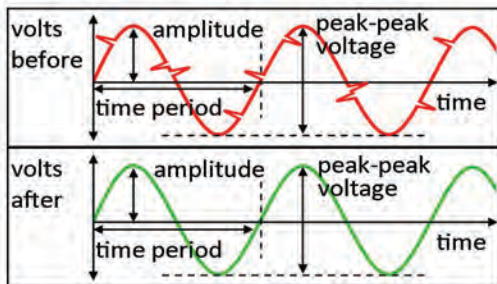

The Perfect HVAC Solution
Power Conditioning for any System!
Residential or Commercial!

POWER PERFECT BOX

Single and Three Phase 120V, 208V, 240V & 480V

Satic's Power Perfect Box installs directly at the breaker panel or at point of use such as large commercial air conditioners providing line conditioning, surge protection, phase correction and harmonics reduction.

Filter out harmful harmonics and dirty energy • eliminate harmful voltage distortions • increase reliability • extend the life of motors and electronic control systems and save money on your electric bill!

- **Reduced Electrical Consumption:**
 - Equipment runs more efficiently
- **Electromagnetic Interference Reduction:**
 - Protect sensitive electronic control systems
- **Voltage Regulation:**
 - Surge protection for your whole system
- **Dirty Electricity Elimination:**
 - Reduce heat from unusable power
- **Phase Correction:**
 - Decrease power requirements
- **Harmonics Filtration:**
 - Provide cleaner Power
